BROOKLYN, 3; BOSTON, 1-MORNING GAME.

BROOKLYN, 3; BOSTON, 1—MORNING CAME.
BOSTON. April 10.—The opening of the
National League season in Boston was favored by fine weather, and some good individual
playing was seen on the South End grounds,
where the Boston team played two games
with Brooklyn. The morning contest drew
a crowd of 5,000 persons, but as it was a long
drawn-out affair of thirteen innnings most
of the spectators were glad when the Brooklyns scored the runs that gave them
a victory. In the thirteenth inning Dolan
was first up and struck out. McCreery
went out, Greminger to Tenney. Dahlen
frove out a nice single and Flood scored
him with a hard drive against the right field
lence which netted three bases. Hildebrand
kept up the batting streak by scoring Flood
with a safe bit, and Irwin placed the ball well
out of reach for a base. Ahearn retired his
side by striking out.

The local nine won an uphill game in the afternoon, after Willis and Long had nearly lost it by foolish playing. In the fourth inning the visitors got a run. In the sixth they scored two runs. Dolan hit an easy one to Tenney, but Willis ran over the bag and the batter was safe. A wild throw by Willis put Dolan on second, and after McCreery had fanned Dahlen lifted the sphere over the fence for a home run. The Bostons scored one run in their half of this inning. Tenney singled, stole second and went to third on Courtney's hit. Brown brought in the run with a double to right. In the seventh Long led off with a two-bagger and reached third on a single by Kittredge. Willis hit to Flood who tagged Kittredge, but while Flood was trying to double the Boston pitcher. Long scored. Cooley drove out a single and Tenney walked. DeMontreville hit to Dahlen and Tenney was out at second. Flood threw wild to second in an endeavor to catch Demontreville, Willis and Cooley coming home. Tenney kept on around the bases and Farrell tagged him at the plate. The Brooklynites thought the side was out and threw down their gloves, DeMontreville going to second before the visitors discovered that only two were out. Boston added another in the eighth on a single and steal by Greminger and Long's single. The scores:

STORMY SCENES AT BALL GAME Crowd Breaks Down Fence and Players Adopt Rowdy Tactles.

Boston, April 19.—The opening of the American League season this afternoon was attended with sensational features. When the gates were opened every available space in the grand stand and bleachers was soon filled. Still the crowd surged in and finally when about 15,000 persons had been admitted the gates were closed with a howling mob

of 8,000 enthusiasts outside.

Ground rules were put in force and a space roped off around the field, but the crowd refused to remain within the limits and before play began a portion of the fence was broken down by those out in the street and hundreds poured into the already over-crowded field. In the rush through the aperture a man fell and was dadly trampled aperture a man fell and was dadly trampled on. Then the cops rushed into the fray and drove the people back while the fence was propped up. Again the crowd outside charged the fence and again the weakened place gave way and in rushed more men and boys, until it was estimated that about 5,000 had gained admission without paying.

There was little room for ball playing with the people swarming over the diamond, as well as filling the outfield. It was impossible to start the game under these conditions, and the members of the Baltimore and Boston teams turned to and aided the police in trying to clear the diamond. After an hour's work the crowd was forced back and play began, under conditions that were far from satisfactory.

under conditions that were far from satisfactory.

The game itself was full of sensations. McGraw of Baltimore displayed some of his old rowdy tactics and kicked over so many decisions made by Umpire Connolly and called him so many hard names that the latter ordered the Oriole out of the game and finally off the grounds. Gentleman Jimmy Collins registered wordy kicks and once Connolly pulled his watch. Then Collins subsided. Many of those shut out in the street went over to the National League grounds, where room was plenty. The score:

SEVENTH MEN IN TRIAL GAMES

THEY COMPETE FOR PLACES ON TEAM TO MEET CADETS.

Paul W. Doll of Company E Triple Winner -Kent Beats Delgade in the 100 Yard Dash - New Regimental Record in Pole Vault by Thomas and Peters

Athletes of the Seventh Regiment who will meet the Annapolis Naval Cadets in an inter-athletic contest at Annapolis on May 10 held a series of trials yesterday afternoon on the grounds of the Knickerbocker A. C. at Bergen Point. The trials were arranged for the grounds of the Knickerbocker. The trials were arranged for the purpose of selecting the team who will try conclusions against the "Middies," and though they did not reveal the real strength though they did not reveal the real strength of the Seventh in every case, were highly interesting. For instance, the high jump was won by Paul W. Doll with a leap of 5 feet 4 inches, while I. K. Baxter, who is a member of the Seventh and will no doubt be available for the match, is capable of clearing over 6 feet. In the half-mile run C. B. Marshall of Company E did not put in an appearance, but he will surely be selected. He is the crack runner of Columbia University and on Friday afternoon covered the half in 2 minutes 3 seconds, which was accepted in the light of a trial by the Seventh's officials.

The programme, which was suggested by

a trial by the Seventh's officials.

The programme, which was suggested by Annapolis and agreed to by the Seventh, consists of eight events—100, 220, 440 and 880-yard runs, high and broad jumps, 16-pound shot and pole vault. Each side will be allowed to start three men in each event, the scoring to be on the basis of 5 points for first, 3 points for second and 1 for third. The baseball teams of both institutions will also play a special match on the same day and Annapolis rows Yale on the same date also.

The baseball teams of both institutions will also play a special match on the same day and Annapolis rows Yale on the same date also.

The first event run off yesterday was the 100 yards. The starters included such cracks as A. H. Kent and Washington Delgado of Company G., who once defeated Arthur Duffy, the Georgetown fiyer. At the flash of the gun Kent and Delgado were abreast at the 75-yard mark, where Kent drew away and won by two yards in 10.3-5 seconds.

Paul W. Doll of Company E. proved a triple winner. He secured the high jump. 440-yard and half-mile. In the half-mile E. L. Broadhead of Company G looked several times as if he would wrest the lead from Doll. He came within two feet of Doll at the tape. In a private trial S. K. Twomas, Company E. and J. E. Peters of Company H. cleared 10 feet sinches in the pole vault, both qualifying for their new places on May 10. For this performance Thomas and Peters will receive record medals from the Seventh Regiment A. A. The officers who had charge of the games yesterday were Capt. Walter G. Schuyler, referee: judges, Sergt. Lance Wilson and Capt. James Schuyler, Company A. Y. Fringle, Company G. was starter, and J. E. Peters, timer. The summary:

100-Yard Run—Won by Arthur H. Kent. Company G. W. Delgado, Company G. second; S. K. Thomas, Company G., with a put of 33 feet 8½ inches; Putting 16-Pound Shot—Won by W. H. Wellbrock, Company G., with a put of 33 feet 8½ inches; W. J. Kindgen, Company G., second, with 38 feet 2 inches.

220-Yard Run—Won by Victor Andrews, Company G., arthur H. Kent. Company G., second, W. Doll. Company B., third. Time, 25 1-5 seconds. Running Broad Jump—Won by Paul W. Doll. Company E., second, with 5 feet 3 inches; R. Thomas, Company G., second; C. Fechtman, Company B., third. Time, 54 -5 seconds. S. K. Thomas, Company G., with 19 feet 3 inches; S. K. Thomas, Company G., second; C. Fechtman, Company B., third. Time, 55 4-5 seconds. S. So-yard Run—Won by Paul W. Doll. Company E., second, W. Hughes, third. Time, 2 minutes 23 seconds.

National Cycling Association Incorporated - Straightaway Motor Cycle Record. The National Cycling Association was incorporated in Trenton on Monday under an act of 1898, providing for the incorpor fit. The organization consists of incor-porated cycling clubs and has for its object he direction of bicycle racing and the detection and punishment of frauds therein The incorporators are Charles B. Bloemecke of Newark, C. Ross Klosterman of Baltimore, Patrick T. Powers and George W. Flacke of Jersey City and A. G. Batchelder

f Manhattan A new record for a mile, straight-a-way on a motor bicycle was made at the Nice carnival recently by Williams, the English cyclist. He made the distance in 1 minute 27 3-5 seconds. There is no record for a straight-a-way motor cycle mile here. The track record for a mile is 1 minute 12 2-5 seconds, made at Valisburg, Oct. 27, 1951, by Albert Champion.

by Albert Champion.

There is one way in which the disappearance of bicycle academics for instruction is being continually felt by riders and dealers according to a prominent dealer, and this is in the purchase of new wheels. When most of the large salesrooms had a riding hall, intending buyers could take a wheel an; try it by riding about the floor and no damage was done to the tires. By this method a cyclist could satisfy himself or berself absolutely on the all important question of "fit", or position. There are riders who can get their most advantageous position on one model and cannot get it on another by any processes of adjusting the saddle and handle bars, because of the frame lines. This applies particularly to short armed persons, who find that on a wheel with certain frame lines particularly to short armed persons, who find that on a wheel with certain frame lines the bars are in the way of their knews as soon as they get them back far enough to reach them easily, or else the saddle is so far forward that their leg-thrust is awkward. The method of buying wheels by what might be called "trying them on" on the foor of a store is not satisfactory. A wheel held stitionary by a salesman while a rider tries hale greach and arm reach may seem all right to the buyer at the time and yet prove a poorly fitting machine after it has been ridden a few miles.

The dealers cannot afford to allow buyers to take wheels out on the street or road to try them, because it would spoil the newness of the tires, make them practically second-hand. This would seem to be a serious dilemma, for it is well worth the tradesman's while to have customers perfectly fitted and satisfied. It might be worth their while to fit an old pair of tires to a wheel and grant a trial of it on the road to experienced riders upon request. It is only a half-hour job to change new tires for old ones or vice-versa.

A bill has been introduced in Congress to enlarge the Department of Agriculture

A bill has been introduced in Congress to enlarge the Department of Agriculture Road Inquiry Bureau. Every club repre-sented in the Associated Cycling Clubs of New York requested such a bill and the wheel-men of this city are supporting it heartily.

The American Bicycling Company has decided to have a team of racing men on the brands of wheels made in the different factories that it controls. The "trust" will support the sport in the same way it did last year. All of its riders will be obliged to follow the national circuit.

Great Australian Hurdler May Race Here. Australia now boasts of the greatest timber topper in the world. He is G. M. Smith of Auckland, New Zealand, and his record for the 120-yard high hurdles is 15 1-5 seconds, equalling the world's record held by A. C. equalling the world's record held by A. C. Kraenzlein. Smith's figures are even more meritorious than those of the Milwaukee flyer, for the performance was accomplished on a grass course. Smith, it is reported, made the 15-1-5 seconds with such apparent ease that Antipodeans believe he will before the close of the present season reduce the record to 15 seconds flat. He will sail for England in a few weeks and will take part in the coronation sports and English championships in July. It is reported that a visit to the United States later in the season is included in his schedule.

Orange Defeats Stevens at Lacrosse. The lacrosse team of the Orange A. C.

The lacrosse team of the Orange A. C. defeated the second team of the Stevens Institute of Hoboken at the Orange Oval yesterday afternoon by the score of 4 to 2. Although the match was considered only a practice game for the Orange team, the Stevens twelve played a strong game in the first half, at the end of which the score was a tie with two goals for each side. In the second half, however, Orange played a better game and not only scored two additional goals, but kept the visitors from adding to their score. Yachting Notes.

Many American Polo Pontes for England. Many American Pole Ponies for England.

The essentials for English pole in the line of ponies are being shipped from here very generously. Yesterday there were fifteen pole ponies in a shipment of sixty horses that left this port by the steamer Menominee. They were consigned to that star pole player of Britain. T. B. Drylorough. This consignment of fifteen is interesting because of the class of horse and it is further interesting because the fifteen ponies foot a column the total of which is a little more than one hundred—all pole ponies sent from here to England since the first of the present year.
